*Letter to McAuliffe from Penny Harvest grantee and Service Day partner:*

Thank you so much for the invitation to attend the check presentation this morning, and for the chance to meet the group who is making the blankets today. What an impressive group of young people. The work they did to raise this money is amazing, and the multitude and diversity of missions of organizations they chose to support and serve is impressive and inspiring. The student MC, the students who presented the checks, and the entire school during the assembly were absolutely wonderful. I have the opportunity to visit a lot of schools all over the metro region and I've never seen a group so large listen so well and be so respectful and supportive of their classmates during an assembly as the McAuliffe students were today. I left feeling grateful for the support of McAuliffe, honored to have been a part of this morning, and inspired by these young philanthropists and activists.

Please pass my gratitude on to your students, as well as all of the teachers and administrators that worked on the Penny Harvest and the assembly this morning - it is no small task and I appreciate the time, energy, and effort that it took to achieve such great things. Many, many thanks for doing all of this amazing work.

With much gratitude,

Amy
